SUMMARY

Backend Software Engineer with 2+ years of expertise in C#/.NET, Go, and cloud infrastructure. I build scalable enterprise solutions and collaborate closely with cross-functional teams to clearly define and solve technical problems. I bring a strong passion for modern web technologies, AI integration, agentic coding, and software for movie production.

SKILLS

Backend: C, C#/.NET, Go, Java, Python, DDD & MVC Architecture, RESTful API, Microservices, Docker

AI: Agentic coding, MCP servers, Open source and local models, Skills, Prompts

Frontend: React, TypeScript, JavaScript, HTML5, CSS3, HTMX

Database: PostgreSQL, MySQL, SQL, Graph Databases

Infrastructure/DevOps: Microsoft Azure, Google Cloud Platform, Firebase, CI/CD, Git

Soft skills : Adaptability, Teamwork, Communication, Positivity, Motivation

Languages: French (Native), English (Fluent, TOEIC 900/990), Chinese (Intermediate)

PROFESSIONAL EXPERIENCE

Founder & Developer - Vemakin (vemakin.com) | Shanghai, China | March 2026 - Present

- Architected and built a highly concurrent backend for a filmmaking SaaS on **GCP** using **Go**, optimizing throughput via **Go routines, channels**, and robust front/backend caching strategies.
- Developed an **SEO-optimized front-end** using **React, TypeScript**, and **Firebase**, accelerating the development lifecycle through **AI-assisted agentic coding**.
- Built cost-efficient **database** via advanced **PostgreSQL** indexing and backend caching while ensuring platform **security** and **data privacy** with OWASP and GDPR **standards**.

.NET Backend Engineer | Hager, Bordeaux, France | September 2023 - September 2025

- Developed robust **C#/.NET** backends on **Azure** for next-generation Hager devices, optimizing execution via **parallel processing, DDD**, and **relational/graph databases**.
- Worked closely with front-end teams in an **Agile** environment to design a physical event simulator for virtual devices and a complete installation management solution.
- Maintained strict code quality and system reliability with **unit tests, integration tests**, and **technical documentation**.

INTERNSHIPS

.NET Backend Developer Engineer | Hager, Bordeaux, France | April 2023 - September 2023

- Built a **C#/.NET backend** solution on **Azure** for device environment configuration, architected purely on **Domain-Driven Design (DDD)** principles.

Java Developer Intern | Avista, Bordeaux, France | Summer 2018 & 2019

- Developed finance and treasury management software using **Java** and **SQL** for enterprise clients.

EDUCATION

Master's Degree in Computer Science - University of Bordeaux, France (2021-2023) | GPA: 3.7

Bachelor's Degree in Computer Science - University of Bordeaux, France (2019-2021)

Chinese Language Program - Fudan University, Shanghai, China (2025-2026)

PROJECTS

- Autonomous drones playing volleyball using **OpenCV** and **Python** with real-time object rendering.
- Developing **neural networks** for object detection and classification.

Hobbies & Interests

Directing, production and filmmaking processes | Agentic coding, local models and benchmarking | Traveling
